Dear Alex:

ExxonMobil is pleased to provide a \$55,000 contribution to the continued efforts of Atlas Economic Research Foundation.

This contribution is for Atlas to continue their work in the areas of climate change, sustainable development and corporate responsibility. It is important that we continue to demonstrate the real key to sustainable development in developing countries is economic development.

Also, I would like to see some of these funds provided to Atlas Associates within developing country think tanks in Africa, Latin America and Asia. In addition, there is a new free market think tank in France, Institut Molinari, that should receive a small grant.

Please keep me informed as you move forward in your efforts on this issue and the climate change issues. Again, thanks for the efforts of the Atlas

Sincerely,
